

# FPT1 FULL HEIGHT TURNSTILE

Introducing the Frontier Pitts Full Height FPT1 Pedestrian Turnstile: designed for perimeter use, it complements security sliding or hinged gates to provide comprehensive pedestrian and vehicular control. With 120° rotor, single cage, and bespoke manufacturing, it offers a 100% duty rating for continuous use. Compatible with any access control system, it includes various customization options and requires a 230v 50Hz 2 amp single-phase supply.

## BENEFITS & FEATURES

- Designed for continuous and frequent use
- Comprehensive Control: Provides both pedestrian and vehicular control when used alongside security sliding or hinged gates.
- Versatile Design: Available with 120° rotor option and single rotor to suit different security needs.
- Durability: 100% duty rating ensures continuous and frequent use without compromising performance.
- Customization: Bespoke manufacturing options including signs, special colors to the straight arms.
- Seamless Integration: Can be interfaced with any access control system for enhanced security management.
- Electrical Efficiency: Operates on a 230v 50Hz 2 amp single-phase supply, suitable for various configurations.
- Robust Foundation Requirements: Specific foundation dimensions ensure stability and reliable operation.
- Steel fully welded construction, heavy duty.
- Operational temp -20°C to 60°C

## CIVIL REQUIREMENTS

- Single Rotor Turnstile Foundation: 120° L:1500mm x W:1300mm x D:300mm
- Note: Power and control wiring ducts to be incorporated into foundations

## OPTIONS

- Can be painted to any RAL colour
- Red/Green indicator LED lamps
- Push button or access control or free exit availability
- Card reader mounting plate.

## ELECTRICAL REQUIREMENTS

- 230v 50Hz 2 amp supply single phase Depending on configuration
- All electrical and control units are one house in Top Cabinet weather resistant.
